

## Support License

---

You can now leverage me to help you implement Masonry or Isotope. Email support requests to: [support@metafizzy.co](mailto:support@metafizzy.co).

When submitting an issue, provide a link to the site you're having trouble with. I can't debug your problem without live code. If your project is confidential, try re-creating the issue in [jsFiddle](#).

Typical response time is within 3 business days. I make no guarantees that I can completely resolve your issue, but I will do my best job to help you out.

*David DeSandro*  
*Lead Developer, Metafizzy*
